Virulent Newcastle Disease (VND) in Chickens, Downtown Los Angeles, Los Angeles County: UPDATE

On 05/18/18 at 1105 hours, CSWC received a report from the California Department of Food and Agriculture (CDFA) that CDFA had detected virulent Newcastle disease (VND) in 10 chickens in Downtown Los Angeles, Los Angeles County.

- The detection has been confirmed by the United States Department of Agriculture's (USDA) Animal and Plant Health Inspection Service
- This is the first case of VND, previously referred to as exotic Newcastle disease, in the US since 2003.
- VND is not a food safety concern. No human cases have ever occurred from eating poultry products.
- Infection is easily prevented by using standard personal protective equipment.
- CDFA is working with federal and local partners as well as poultry owners to respond to the finding.
- State Officials quarantined potentially exposed birds and have tested for the disease.
- Cal OES is monitoring and remains on standby to assist as warranted.

Per CDFA on 05/23/18 at 1506 hours: CDFA needs assistance with Newcastle Disease outbreak - Ontario or vicinity.

- CDFA found more disease and scaling up their response.
- The new presumptive positive premises is in San Bernardino County.
- The problem is space for CDFA's Incident Command Post (ICP) and supplies. The current ICP is too small for the current 50 responders.
- They need to find temporary space for a month at a fairground, city or county emergency operation center, or other county location.
- Storage is also needed (ideally at a different location or building), workstation space with internet access and meeting rooms.
- CDFA Animal Health and Food Safety Services (AHFSS) is reaching out to the fairs in or by San Bernardino County.

Per CDFA on 05/24/18 at 0638 hours: Intel from yesterday suggests this may be a major outbreak. CDFA is sending their full incident management team. They need a larger ICP ASAP, a contract with Waste Management Inc., and to expand the Department Operations Center.

Per the Cal OES Southern Region Duty Officer (SDO) on 05/23/18 at 1539 hours:

- SDO is working with the Cal OES Sr. ESC to reach out to San Bernardino Emergency Manager for locations to fit CDFA needs.
- SDO is reaching out to CDFA AHFSS for specific information.

Days 1-3 Precipitation Forecast

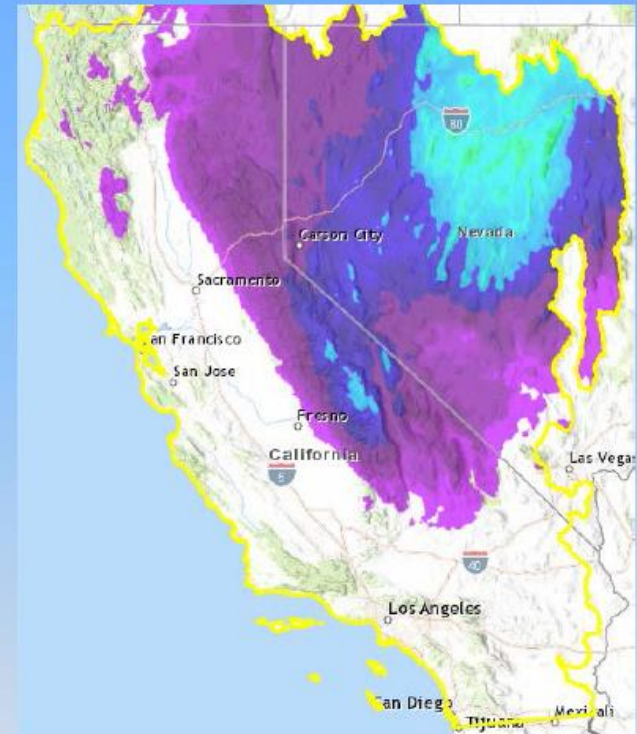

Precipitation (inches)

Thursday

Friday

Saturday

Light precipitation except up to .50 inch possible northern mountains. No precipitation in SoCal.

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

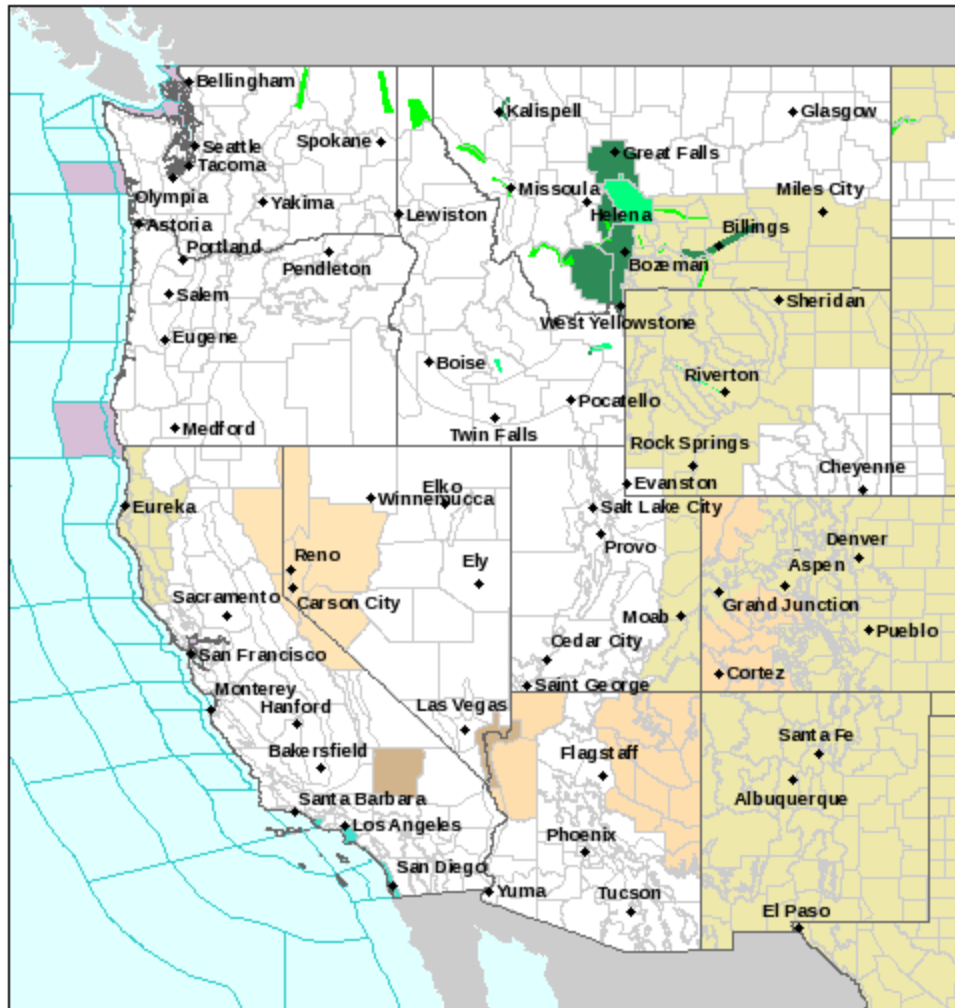

Another Pacific low pressure system approaching the coast will allow the wet unsettled weather pattern to continue in the region. The main focus for widespread showers and scattered thunderstorms today will be the mountains, but nearby valleys will also see some activity. The low will pass over the southern end of the region Friday. Widespread showers and thunderstorms are expected in the mountains, with scattered activity in valleys. Temperatures will be 10-15 degrees below normal Friday. S-W winds will gust to 20-30 mph this afternoon and Friday, and outflow gusts from thunderstorms could reach 35 mph. The system will exit to the east early Saturday, with showers and a few thunderstorms lingering in eastern areas. A NW-NE flow pattern will set up over the area Saturday as high pressure builds in from the west. Although isolated daily afternoon showers or thunderstorms are possible over the Sierra crest Saturday through Monday, the majority of the region will be dry with minimum afternoon relative humidity in the teens. Afternoon temperatures will increase to 10-15 degrees above normal by Sunday or Memorial Day. Peak northerly downslope winds will be 20-25 mph in wind-prone spots from the western Cascade-Sierra slopes to the coastal range. By Tuesday a weak trough will approach the region and cause an increase in shower and thunderstorm activity.

SOUTHERN CALIFORNIA

The marine layer managed to deepen another 1,000 feet last night, and as a result, widespread drizzle is occurring along the coast and some interior valleys. Expect slower clearing today overall with only a few breaks in the overcast layer during the afternoon west of the mountains. Temperatures today will only reach the 60s along the coast to the upper 70s to lower 80s in the San Joaquin Valley. Brisk west winds of 20-30 mph with gusts to 40 mph will develop this afternoon in and near the Antelope Valley and Banning Pass. Isolated showers will continue to occur near the Sierra Crest. An approaching low pressure area will cause southerly winds of 20-30 mph to develop toward evening in the Owens Valley and Inyo National Forest. This low will slowly pass through the central part of the state Friday, leading to scattered showers over the northern half of the state. Wetting rains will be possible north of Fresno County with amounts approaching a half inch from Yosemite N.P. northward. Light rain and drizzle will be possible near the higher terrain across the rest of the area Friday morning. Cool, cloudy weather will continue into Saturday morning, but some clearing is expected by Saturday afternoon as the low moves east of the area. Gusty north winds of 15-25 mph will be possible in the I-5 Corridor Saturday night. A weak ridge will bring warming to the area early next week, and by Monday and Tuesday, expect high temperatures to reach near normal readings. Another weak low may bring cooler, onshore flow back into the weather picture next Wednesday.

GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

Cal OES LAW ENFORCEMENT MISSIONS

Closed Cal OES Law Missions

- **2018-LAW-47873, 05/23/18, 1947 hours:** Contra Costa Sheriff's Office requested 2 trailing and 2 area K-9's for an 85 year old at risk male who was last seen at 1000 hours earlier in the day walking towards Wildcat Canyon in the Richmond Hills, City of Richmond. Cal OES coordinated the request. **Update: 2236 hours:** Contra Costa Sheriff advised missing/at risk person had been safely located about a mile from his residence, having been wandering for over 10 hours. **Mission Closed.**
- **2018-LAW-46865, 05/23/18, 1212 hours:** Yolo County Sheriff requested a Drowning Accident Rescue Team (DART) for an overturned small aluminum boat in the Deep Water Channel of Port of West Sacramento, three fishermen were in the water, and one was missing. Sacramento Sheriff's Department Search and Rescue (SAR) coordinator was contacted by the Cal OES Law Enforcement Duty Officer (LDO) and DART activated. **Update: At 2125 hours:** Sacramento Sheriff's DART supervisor advised that DART responded to and staged at Port of West Sacramento. West Sacramento Fire Department deployed their fire rescue boat and utilizing side scan sonar, was unable to locate the missing boater. DART canceled. **Mission Closed.**
- **2018-LAW-46811, 05/19/18, 1217 hours:** Mendocino County Sheriff's Office advised that on Friday 05/18/18 at 1300 hours, a 76 year old female at risk with early stage Alzheimer's walked away from her residence in the town of Piercy. Mendocino Sheriff requested twenty (20) Type I and Type II searchers, 2 trailing K-9's and 2 area K-9's for 0900 hours start time on Sunday 05/20/18, at the Piercy Community Center off of Hwy. 271 in Piercy. **Update: 05/20/18:** Mendocino County Sheriff requested the following resources for Monday 05/21/18 - 50 Type I and II searchers; four wheel drive trucks or vans with a driver to transport search teams; California National Guard (CNG) support for 50 Nano shout devices with technician support; 5 area search dogs. Cal OES LEB is coordinating the request. **Update:** Mendocino County Sheriff requested the following resources for Tuesday 05/22/18 and Wednesday 05/23/18 for 50 Type I and II searchers; four wheel drive trucks or vans with a driver to transport search teams; 5 area 2 trailing search dogs. Cal OES LEB is coordinating the request. **Update: 05/23/18:** Mendocino County Sheriff requested the following resources for Wednesday 05/23/18 and Thursday 05/24/18: 50 Type I and II searchers; four wheel drive trucks or vans with a driver to transport search teams; 2 overhead personnel; 1 area, 2 trailing and 2 HRD search dogs. Cal OES LEB is coordinating the request. **Update, 05/24/18:** Mendocino County Sheriff's Office is not requesting any further mutual aid assistance and will continue with a limited continuous search with in-county resources only. All resources requested for 05/24/18 have been canceled. **Mission Closed.**

Emergency Management Assistance Compact

- **2018-Cal OES-46751:** The State of Hawaii requested one (1) Geothermal Subject Matter Expert (SME) from the California Department of Conservation, Division of Oil Gas & Geothermal Resources, to provide support to the volcanic activity occurring in Hawaii. The SME has industry and regulatory experience, as well as knowledge of geothermal wellhead construction, operations, processes, risk management, and mitigation. Original deployment dates: 5/13/18 - 5/19/18. The State of Hawaii has requested an extension of this resource; the new return date is 05/24/18.

Cal OES MISSION TASKING

Cal OES Missions

- **2018-IREOC-45244:** Caltrans to remove dead and dying trees along highways in Kern, Tulare, Fresno, Madera, Mariposa, Tuolumne, Calaveras, Butte, Plumas, Sierra, Shasta, and Lassen counties. (On Scene – Long-term assignment)
- **2017-SOC-44098:** CalRecycle Debris Management Team in Ventura County (Coordinating)
- **2017-SOC-43821:** DTSC to remove household hazardous waste from over 500 residential lots in Ventura County (On Scene)
- **2017-Inland-42559:** Weather station installed to gather real time rainfall data by Air Resources Control Board (On Scene)
